

Trash Policies at Reve

Valet Trash Pickup

1. **Service schedule** – The pickups are scheduled for **7 nights a week, starting after 6:00 PM**. All trash and recycling bins should be placed outside of your door **no earlier than 5:30 PM**, and **must be returned in your home before 9:00 AM** the following morning.
2. All **trash bags** must be **kept in a Bundle-provided plastic bin** or a fitted, plastic bin of your choosing. This protects the building from leaky bags or any rips and tears. If you do not have a Bundle trash bin, please reach out to our office to receive one.
3. **Trash and Recycling bags** must be tied and sealed properly. This limits the smell in the hallways for the brief period of time that trash is being collected. Recycling should be placed in a clear plastic bag, also kept in the Bundle-provided recycling bin.
4. **Large boxes** - If you have cardboard boxes, please ensure to break them down and fold them; otherwise, they will not be collected.

Communal Trash Disposal

1. There are **trash chutes** located by the elevator on each floor in each building. This should only be utilized for standard-size trash bags.
2. There are **oversized recycling bins** that are accessible in the **P1 level** of each garage. They are open 24/7, and we advise you to utilize them for large boxes. **For compost**, there are two bins in the P1 level of the **south garage** that are available 24/7.
3. **Under no circumstances** should trash or recycling be left in or outside of the trash chute rooms. The passageways must be cleared at all times.
4. If you have trash that will not fit in the trash chute, please notify a member of our leasing team and **we can assist with access to the trash rooms** in the parking garages.
